Pure Vermicompost Fertilizer by Sukarshana – Natural Plant Growth Booster & Soil Enricher

Healthy plants always begin with healthy soil. **Pure Vermicompost Fertilizer from Sukarshana** is a premium-quality organic fertilizer produced using natural composting processes. Rich in essential nutrients and beneficial microorganisms, this vermicompost improves soil fertility, strengthens plant roots, and supports sustainable farming without relying on harmful chemicals.

Suitable for home gardens, terrace gardens, kitchen gardens, nurseries, farms, flower beds, vegetable cultivation, and fruit plants, this organic fertilizer naturally enhances plant growth while improving the overall quality of the soil.

Why Choose Sukarshana Pure Vermicompost Fertilizer?

Sukarshana manufactures **high-quality organic vermicompost** that is prepared from carefully composted organic material. The fertilizer contains naturally occurring Nitrogen (N), Phosphorus (P), Potassium (K), Calcium, Magnesium, and beneficial microbes that enrich the soil and promote vigorous plant development.

Unlike chemical fertilizers that may reduce soil quality over time, vermicompost continuously improves soil structure, increases microbial activity, and helps plants absorb nutrients more efficiently.

Key Features

- 100% Natural Organic Vermicompost
- Chemical-Free Soil Conditioner
- Improves Soil Fertility Naturally
- Rich in Nitrogen, Phosphorus, Potassium, Calcium & Magnesium
- Supports Healthy Root Development
- Improves Water Retention Capacity
- Enhances Soil Aeration
- Encourages Beneficial Microbial Activity
- Eco-Friendly and Biodegradable
- Suitable for Indoor & Outdoor Plants

Benefits of Pure Vermicompost Fertilizer

Using **organic vermicompost** regularly helps improve overall plant health. The organic matter increases nutrient availability while maintaining the natural balance of the soil.

Major benefits include:

- Faster seed germination
- Stronger root growth
- Greener leaves
- Better flowering
- Improved fruit and vegetable production
- Enhanced soil texture
- Increased microbial population
- Higher moisture retention
- Reduced dependency on chemical fertilizers
- Sustainable farming solution

Suitable For

This 1KG vermicompost pack is ideal for:

- Home Gardening
- Kitchen Gardens
- Terrace Gardens
- Balcony Plants
- Flowering Plants
- Indoor Plants
- Outdoor Plants
- Vegetable Gardens
- Fruit Trees
- Herbal Plants
- Nursery Plants
- Organic Farming

Product Specifications

Product Name: Pure Vermicompost Fertilizer 1KG
Brand: Sukarshana
Product Type: Organic Vermicompost Fertilizer
Material: Organic Composted Matter
Application: Soil Conditioner & Plant Growth Enhancer
Packaging: 1KG Pack or according to buyer demand
Country of Origin: India

Suitable pH: Neutral to Slightly Acidic
Shelf Life: 6–12 Months

How to Use

Mix the vermicompost evenly into the top layer of soil around the plant roots. Water the plants after application. For best results, apply every 20–30 days during the growing season.

Why Organic Vermicompost?

Organic vermicompost feeds both the soil and the plants. Earthworm-processed compost naturally improves soil fertility without leaving harmful residues. It promotes long-term soil health and supports environmentally responsible gardening and farming practices.

About Sukarshana

Sukarshana is a trusted manufacturer and supplier of **premium organic vermicompost fertilizers** based in Jharkhand, India. The company is committed to providing eco-friendly agricultural solutions that improve soil quality and help farmers, gardeners, and plant lovers grow healthier crops naturally.
